

## **NEW EDUCATION SYSTEM – NO BAD PUPILS** SHATALOV'S (?) UA

FOR EVERY AGE

1. A TEACHER GIVES A LESSON.
2. NEXT LESSON THE CLASS DIVIDES ON 2 GROUPS AND CHILDREN PASS THE LEARNED LESSON TO EACH OTHER.
3. EVERY PUPIL MUST GET THE EXCELLENT MARK.
4. EVERY DAY CHILDREN ROTATE.

**THIS LEADS TO THE 100% UNDERSTANDING OF ALL THE SCHOOL MATERIAL BY ALL THE CHILDREN/STUDENTS EVERY DAY.**

SHATALOV WAS PICKING UP BAD-MARKERS FROM REGULAR CLASSES, FORMED SEPARATE CLASSES FROM THEM AND THEY FINISHED SCHOOLS FASTER AND WITH BETTER RESULTS THAN LEFT GOOD-MARKERS IN NORMAL SCHOOLS.

OWN CHILDREN OF SHATALOV GRADUATED FROM INSTITUTES AT 18 Y.O.

**PLS, HELP ME TO IMPLEMENT THIS FUTURE SYSTEM WORLDWIDE.**

## **RICH AND HAPPY FAMILY STRATEGY (MY OWN INVENTION)**

Is the concentration of all your efforts on buying a flat for yourself and your future child. And only after it u make/get pregnant.

### **FIRST THE FOUNDATION – AFTER THE BUILDING**

You will need somebody to change your pamperses only at 75 y.o. This means that before 50 y.o. you can concentrate on money earning for buying houses or flats and u will adopt or give birth to a girl or a boy at 50 y.o.

A child = loss and outflow of money in geometrical progression. And u will also need a lot of money to give to your old parents and to change their pamperses. How old will u be when it happen?

Pushing to pregnancy without own separate living place for both future parents = involving down to poverty in geometrical progression of this future family, credit slavery, stimulating hate and violence in families, trading as prostitutes of future children, prostitution itself and increasing of homeless and criminals.

*And every child needs own separate flat at 18 y.o. for normal sex.*

I'm also 100% sure and will be till the end of my days that to adopt a homeless street child is much more Sainter than to give birth to own.

**AND EVERY ABORTION-MURDER IS PAID BACK ONLY BY THE ADOPTION OF A CHILD WITHOUT PARENTS (BETTER A GIRL), AND NO OTHER WAY.**

PREGNANCY=BIRTH UNADOPTED ABORTION?

And try Family Constellations of Bert Hellinger.

ASIA, WE LOVE U!!! AND INDIA!!!\*

Hi, I consider paralyzed ppl (PARA-PPL) as the intellectual elite of the society of the Future. We just need to give them the possibility to learn nonstop and express their thoughts. Pls, help us with the following projects, technology you have and money and staff and all.

1. the program that will turn pages on the screen via voice (or sound) commands (can use whistle). One sound turns the page, double sound returns back. One long sound highlights all the links in the list one after another. When sound stops the last link is ready to press. One short sound presses it. This is for navigation in the list of books to set them free.

2. Voice-to-text converter (texter) for the expression of PARA-PPL thoughts (chat, writing books, articles, forecasts etc.)

3. Online-chess for PARA-PPL with normal. THEY WILL BE THE CHEMPIONS AND EARN FROM THEM!!!

4. Texter also will open all the universities and regular schools for deaf. The teacher speaks, his speech goes to microphone and laptop, after it converts to text and air to remote tablets and notebooks, text comes to screen and saves to file. This will have superwide usage including secretarial role on the meetings, protocols and total control in gov. and business for spying on working places (gov control in russia I very much want – every their lieing word).

If u open search engines to PARA-PPL you will not need any scientist. You will never find smarter ppl. COUNSELLORS, ANALYSTS, PLANNERS, CREATIVITY ETC). I AM THE NO 1 USER OF THEIR CONTENT. Not only PARA, there are ppl with hands disfunction too.

5. I also very much need a sound navigation on the list of such words as «scratch my leg+, choice of food, change pampers, water, I cant breath (for dieing PARA), I want to die...etc” Same navigation as in page-turner (1). We need the whole vocabulary, we need to express our feelings and thoughts.

So far twitter is opened via eye controlled screen keybord for 1 PARA. Check in youtube EagleEyes Eye Controlled Technology Introduction Video

I don't have any money, pls, do it. I need their content and advisers, I see them the TREASURES OF THE WORLD AND FUTURE PRESIDENTS.

SOME SLAVES-OWNERS IN INTERNATS FIND OUT THE INTOLERANCE TO GOV.DRUGS OF ORPHANS TO INJECT THIS VERY FOR TORTURES OF LITTLE BBIES TO GAIN THEIR OBEY (THEY INJECT EVERY TIME THEY SIMPLY DON'T LIKE SOMETHING IN CHILD'S BEHAVIOR). PSY.INTERNATS ATTENDANTS INJECT SEDATIVES ON A NEW YEAR NIGHT TO ALL THE CHILDREN TO DRINK ALONE AND WITHOUT ANY REASONS, JUST IF THEY DON'T LIKE SOMETHING. THEY CAN THROW DOWN A PARALYZED GIRL FROM THE SECOND FLOOR COS SHE DEFICATED AND MADE ALL DIRTY ROUND HER. ## CHEAP LIFE IN THAILAND – ALL FREELANCERS, FLATS OWNERS AND RETIRED PPL R WELCOME

## RUSSIA AND ANY COUNTRY CAN REPLACE RETIREMENTS AND DISABILITY HOUSES TO MUCH CHEAPER THAILAND+

I write this letter cos soon you will retire on a pension and I have one profitable variant for you.

If you have retired pension or have some realty for rent and it will give you income 600-800\$ a month not working, then pls read my article about life in Thailand. If u are young freelancer (work in Internet) read also.

If u get the bigger sum, then life in Thailand is the no 1 possibility for u to save money not working. Pls, calculate urself how much u will be able save per month and per year. Love u.

My mother didn't come to Thailand from Moscow and lost during 3.3 years 33 000\$. (rent of little flat+gov.pension-thai expenses=33000\$ passive income during 3.3 years after all the luxury conditions life in Thailand payments).

600-800\$ a month is enough for good life in Thailand near the sea, this article is about Pattaya city. Phuket is 30% more expensive.

The rent of condo (1 room flat with or without kitchen) costs in the most luxury district 500\$ a month (long lease). Regular price is 300-400\$ a month. Town-houses and villas are more expensive. There are plenty of them.

For 600-800\$ a month you will afford very good food-cort food with great choice. The price of 1 meal there is 1,5-3\$. I lived the most cheap variand and was spending 5\$ a day for food and road and felt fery good.

Thailand offers very affordable dentistry, cosmetology, plastic surgery, medicine care... in tourist zone u will find euro style and air-conditioners everywhere, but not in local one.

I lived 1.5 years in Pattaya, 2 hours road on modern bus from Bankok, the ticket cost is 5\$. Pattaya's population is 1 000 000 people (500 000 locals and 500 000 tourists). U can reach Bangkok on comfortable minibas also

that runs there a few times a day for 3\$ in one direction.You can also visit very cheap neighbor countries - Laos, Cambodia, Vietnam, Mianmar + cheap flights to Bali,

Indonesia and Singapore. Thailand offers birds forests on north and amazing islands on south + river trips and diving.

For instance you need only 1\$ to get on little ship and reach the nearest to Pattaya island, or same road on brand new private motor boat costs 3\$. One piece of ice watermelon price is 30 cents, pinapple and coconut - 60 cents, espresso - 1\$, huge glass of ice coffee - 1\$, shashlik of hen tails or other parts of chicken - 30 cents, tempura shrimps - 1,5\$, good fried rice plate costs 1,5\$. These are street food prices, food corts are 20% more expensive.

The food is very fresh, healthy and tasty. Pattaya offers over 7 megamalls with food-corts, Asian people prefere

not to cook at home. But u can, if you want.

Pure Buddhism makes people friendly and smiling.

You will not find any old cars in Thailand. A few auto plants were established recently and nowadays all

Thailand enjoys only brand new cars. South East Asia peculiarity is absolute absense of pedetrians. A few people use public transport, 30% cars, 70% ride on scooters. 1 month scooter rent is 150\$.

In Thailand u will get the most attractive visa law in the world.

Now about negative sides:

1. Sharp segregation on local (thai) zone and tourist (farang) zone. You will see brutal contrasts - luxury and poverty together very close, which in the beginning really shocks. For instance in Pattaya Bentlies rides among local homeless, poor street vendors and prostitutes, that sleep on street. Or once I saw a beggar boy under the balcony with dining fat foreigners, that gave him nothing.
2. Country-wide prostitution - women, men and ladyboys - locals and escapees from poorer Laos and Cambodia. And country-wide enormous corruption.
3. Sex-tourists - the most disgusting people on Earth, incl child sex-tourism (especially developed in poor Laos and Cambodia). The horrible aspect of this is that for many absolutely uneducated youngsters prostitution is the last resort. When I was in Laos for visa-run I saw a sign at hotel - Report police about child prostitution.
4. Info for women. Thailand is the land of retired people from the developed countries, but mostly men, not women. Marriage on expat is the golden dream of every Thai woman. Men often misbehave like mites on economical woonds of Thai society. A few start families with locals.
5. Local zone - in colonial style houses usually live 3-5 locals in 1 room. The salary in Thailand for 6 days

*Vera.kazakova.bessonova@gmail.com [www.libertyinfinity.com](http://www.libertyinfinity.com) my book is coming for free download (from Moscow, russiand suckfuckderation that thinks via tv that it is the best country of the world and soon die out)*

working week is 250-400\$ a month.6. If you come in spring or summer first months you will die from heat, autumn and winter seasons are all right,

but your first summer will be the Hell, but even this is all right if u, like me, is overweight. And, by the way, every condotel where u will rent a condo has big free swimming pool.

This article is about Pattaya - sex city of the World (where prostitution is prohibited by law by the way). I also read, that Philippines are same attractive for retirement, as Thailand. Philippine people are native English speakers, Thais speak not good most of the time, but extremely friendly. In Philippines I heard about widely spread kidnapping of foreigners and the highest rate of deaths of journalists, OMG(. Also I know that German retired people love Goa somehow.

In Thailand u will not get the Freedom of Speech. The King made law that for criticising of him and his regime any will go to jail for 5 years. One American blogger is already there. For reference I want to tell you that the King of Thailand is one of the most rich people on Earth and all the beaches of Thailand belong to him.

Aborigines are illegal + 6 days working week for local people with average salary 300\$.

For marijuana you will go to jail 5 years, for heroin - death. But all the drugs drug-dealers will offer u openly when u walk on the street.

This letter is for low-income retired people or for young who want to travel a bit. I worked there on freelance as books translator via Internet and lived for 300\$ a month in local zone (including all), I paid 150\$ a month for rent of 1 room flat.

This building will soon be finished in Pattaya + a few the same. To buy own condo in Pattaya costs 50 000 \$ - 70 000 \$.

Good luck and wish u all the best.

I'm looking for the possibility of the investment in Cambodia and Thailand, cos money there cost much more expensive and laws open these countries for investments. If you are interested, write to me
